**NOTE 1)**  
 Please be aware that not all parts represented on this document have specific approvals to be installed on type certified product. We make every effort to display approvals we are aware of. However, lack of a displayed approval does not necessarily exclude a part from being legally installed on an aircraft. In some cases, we may simply be unaware of an approval that does exist. In other cases where no formal approval exists, it is the installer's, and or owner/operator's responsibility to ensure all regulations are complied with.

**NOTE 2)**  
 In compliance with regulations 14 CFR 21.9 on product classifications, please notify EDMO of any exceptions.
