Dear Sir

**QUOTATION FOR THE SUPPLY OF DISTILLED WATER FOR INDUSTRIAL USE**

Your email dated 8 February 2019 and our subsequent teleconversation are referred.

Thank you for your interest in our products. For your information, our distilled water is produced using the latest distillation technology and machines imported from the USA. As part of our manufacturing process, we have strict quality control protocols which include various tests to validate and ensure good quality water on a daily and/or periodic basis in our in-house laboratory by our Head of Production and Quality Control Executive.

Our water is packaged in a standard 20L Jerry Cans. As requested, the following is our quotation for your kind consideration:

NO	DESCRIPTION	QUANTITY	PRICE	TOTAL
2	Distilled Water for Industrial Use (in 20 L Jerry Can)	20 litres	RM0.85	RM17.00
3	20 L Jerry Can c/w cs cap (Model 20L Gen 6) [Refer to Note 2 for details]	1 unit	RM10.00	RM10.00
<b>TOTAL</b>				<b>RM27.00</b>

**Note 1**

Prices quoted above are ex-factory.

Please arrange to collect from our factory. It will be appreciated where possible that two (2) days notice in advance be given to us to facilitate the collection. Thank you.

**Note 2**

For this Quotation we are assisting you to purchase the 20L Jerry Cans with the following specifications.

Please review and ensure that they suit your requirements:-

- a) Material

- Container: High Density Polyethylene (HDPE)
- Cap: Polypropylene Impact Copolymer
- b) Weight (without cap)
  - Empty Can = 1.00kg (approx.)
- c) Dimension
  - Width: 233mm (±5mm)
  - Length: 270mm (±5mm)
  - Height: 400mm (±5mm)
- d) Stackability
  - Up to six (6) stacking height

Alternatively, you may use your own container. However, should you choose to use your own containers and/or use/recycle old containers, please ensure that your containers are clean and suitable for the use/purpose they are meant. We are not to be held responsible for any contamination.

**Note 3**
