Dear Azman,

As previously discussed, we would like to propose the following service for your AW139 Fire Extinguisher PN 33000051-1 (Agusta PN 3G2620V00131) overhaul requirements :

- Standard Overhaul price - **3500.00 USD** (includes hydrostatic test)
- Return freight to repair station included in price, Skyways to take care of DG shipment
- Work done at Ateliers Bigata, France - Certified with EASA F1 Dual Release Tag, covered by a one-year warranty
- kindly note that Ateliers Bigata is an approved Meggitt Fire Extinguisher repair station (the OEM of such fire bottle). OEM parts use **ONLY (no PMA)**
- Price is for fixed labour / standard OH parts replacement, and does not include cartridges/ replacement
- Total TAT 3 weeks

We are looking forward to reading your feedback,

Thank you very much for your kind attention,

Amaury Parent

Dear Amaury,

Many thanks for the proposal.

We are seriously looking into it and shall revert shortly.

Thank you.

Dear Azman,

To continue also on DG items - our IATA approved logistics staff are also able to produce DGD and sign it for your DG shipments.

They can also pack according to the necessary UN code / we would just need in advance what UN Codes you need to ship and hazardous material quantity per unit in order to have appropriate labels with us (need to produce them).

We can propose this service at 50.00 USD for Galaxy (normally we charge 65USD per shipment).

For fire extinguishers, because we handle the repair as well with the vendor, we do not charge any packing fees.

Let me know if this could be of interest,

Amaury Parent
