Taxes, Shipping and Duties: All taxes, shipping, customs or other import charges are the responsibility of the operator and not included in the subscription Fee Schedule or quotes.

Sale Terms: In the event of sale or transfer of an aircraft, remaining paid cycles will transfer to the new owner. It is between the buyer and seller to discuss at time of sale if compensation is to be given.

Fleet Discount: To qualify for a fleet discount, the aircraft must be on the same billing cycle and invoiced together on the same invoice. Fleet discounts do not apply to custom databases. All aircraft must be in service at the time of invoicing. Subscriptions are invoiced annually for a minimum of one year per aircraft.

All Aircraft and Simulators with Honeywell FMS Equipment, using Honeywell Data, require an individual annual subscription and will be invoiced in advance of the renewal period.

When a new aircraft or simulator with Honeywell FMS equipment is purchased, the database Subscriber is required to notify Honeywell so a new subscription service may be added.

This Data Service License Fee Schedule provides the annual fee for Electronic Data Transfer (EDT) and may be revised at any time with such revisions effecting any subsequent annual aircraft addition or annual subscription renewal.
