RE: [External] FRQ- BLEED VALVE (M72-03 CRM:08639008900)

GP PWC Spares

12:50 PM (2 hours ago)

to izzatiazmi@galaxyaerospace.my, atiqahsyuhada@galaxyaerospace.my, hasanun@galaxyaerospace.my, redzuan@galaxyaerospace.my, shuhaimi@galaxy:

Hello Nor,

We currently have stock available

We are able to offer an exchange part in Overhauled condition ("Exchange Unit") in exchange for your core unit, MODULATING BLEED VALVE, 540-1920-5, if acceptable for and compatible with the engine application for which you are seeking a quote. The exchange price would be \$16,992

Please be aware that there is a potential additional billing core charge of \$686.25 (USD) for non-receipt of any Core Unit within 30 working days of the shipment of the Exchange Unit or for the return of the Core Unit that is beyond economical repair or that is not of the same configuration as the Exchange Unit or that is not in a modifiable configuration. Additionally, there may be billing up to the value of the Core Unit for any repairs that we are charged outside the standard overhaul fees (extended core repair costs).
