Dear Bob,

Thank you for your web enquiry which has been passed on to me by my colleagues at Powervamp. As you may be aware, AERO Specialties and Powervamp are now sister companies within the Alvest Group. As such AERO Specialties are now the exclusive sales division for the Powervamp product range. I have now moved over to AERO Specialties as their expert in DC ground power equipment.

I have attached the specification details of the PS100 & CS29T for your reference. The prices for the units are as follows:

PS100 - \$3,539.00

CS29T - \$4,461.00

Shipping, on a door to (air) port basis

Sea freight - \$210.00 transit time 4-5 weeks.

Airfreight - \$370.00 transit time 5-6 days.

Please let me know if you need anything else.

Kind regards

Thank you for your email.

The CS29T comes with a 2m cable. If the 4m cable is to replace this, then the extra cost will be \$105.00 However, if you want the 2m & the 4m, then the cost of the 4m is \$456.00

The additional cost of shipping an extra PS100 will be \$50.00 USD giving a total shipping cost of \$420.00

This service is to airport only and does not include any cost of clearance, taxes or duty.

Please let me know how you would like to proceed.
