# SAFETY AWARD

*In Recognition Of The Dedication And Commitment To Safety*

THIS AWARD IS PRESENTED TO

*Zainuri bin Yusoff*

During a turn round inspection on 9M-PCM (S61N), En. Zainuri heard an unusual noise emanating from the engine. Upon further checking, it was found that the starter jaw mechanism was jammed in the engaged position. To detect the unusual noise during the engine shutdown and amidst the usual apron noise calls for a high degree of attentiveness. En. Zainuri is commended for his vigilance and bringing this to the attention of his Supervisor.
