Subject: PRATT & WHITNEY CANADA ENGINE SERVICE INFORMATION LETTER – KATHON™ FP 1.5
FUEL BIOCIDIC MANUFACTURING BY DUPONT

Dear All,

New publication has been released on Pratt & Whitney Canada portal. This letter is issued due to manufacturing of the fuel biocide additive KATHON FP 1.5 had released an advisory which explain that the use and the sale of additive is recommended to be suspended until the investigation complete and further written communication from DUPONT. Kindly refer SIL No. GEN-156 on GAM Server for your acknowledgement.

Thank You.
