

<b>ENGINEERING NOTICE</b>			
<b>TO</b>	All AMO Personnel	<b>ISSUE NO</b>	GAM/EN/23/08
<b>COMPLIANCE</b>	N/A	<b>ISSUE DATE</b>	09 August 2023
<b>SUBJECT</b>	Maintenance Improvement Team – 2023 update		

### **Background**

The Maintenance Improvement Team (MIT) event, counting on a well-consolidated format, represents an exclusive opportunity for Leonardo Helicopter (the OEM) and Customers to remain in close contact, sharing product enhancements, developments, and initiatives in terms of maintenance efficiency and reliability, in addition to the availability of data and services solutions. The twice-yearly event provided a forum for the operator/maintainer of the AW139 and AW189 fleets to discuss any issues and difficulties related to fleet maintenance.

### **Applicability**

This notice applies to all AMO maintenance personnel involved with the AW139 and AW189. It contains information regarding a problem encountered during a service event, as well as product and publication updates.

### **Compliance**

The latest update of the event in June 2023 can be found in the following link:
