

ENGINEERING NOTICE			
TO	All AMO Personnel	ISSUE NO	GAM/EN/24/01
COMPLIANCE	N/A	ISSUE DATE	31 January 2024
SUBJECT	Maintenance Improvement Team – 2024 update 1		

Background

The Maintenance Improvement Team (MIT) event, which relies on a streamlined structure, provides customers and Leonardo Helicopter (the OEM) with an exclusive opportunity to maintain close contact while exchanging information regarding service and data solutions, product developments, and initiatives that improve the efficiency and dependability of maintenance. The biennial occasion served as a platform for the operator/maintainer of the AW helicopter to deliberate on any challenges and concerns pertaining to the upkeep of the fleet.

Applicability

All AMO maintenance personnel involved with the AW109, AW139, and AW189 are obligated to adhere to this notice. The document comprises details pertaining to an issue that was discovered during a service event, in addition to updates on products and publications.

Compliance

The latest update from the MIT event in December 2023 can be found at the following link:
