

SAFETY MEMO

To : All Employees
Date : 16th January 2024
Reference : GAM-SMS/COM/24/003-M
Subject : Motor-Vehicle Safety at Subang Airport Roundabout

1. Due to the recent unfortunate incident involving one of our intern, it has come to our attention that additional safety measures are crucial, particularly when traversing the Subang Airport roundabout.
2. Please ensure to reduce your speed, be highly alert and pay close attention to other road users while navigating the roundabout.
3. All staff are strongly suggested to consider the following alternative routes when heading to Subang Airport from GAM OC:
 - I. Airbus route and make a U-turn at the roundabout (Appendix 1).
 - II. Make a U-turn at Ara Damansara traffic light (Appendix 2).
4. Please find the Motorcyclist Safety Tips poster for your reference. (Appendix 3).

Thank you.

MOTORCYCLIST SAFETY TIPS

Don't Skip the Helmet: Never ride without a proper, certified helmet. It's your primary defense against head injuries

Don't Speed: Adhere to speed limits and adjust your speed based on road conditions and traffic flow

Don't Ride in Blind Spots: Avoid lingering in a vehicle's blind spot. Stay visible to drivers.

Don't Ride Fatigued: Rest before riding for better safety.

Don't Perform Risky Moves: Steer clear of sudden lane changes and aggressive weaving.

Don't Ignore Weather Conditions: Adjust your riding style based on weather conditions. Rain, wind, and low visibility require extra caution.

Don't Ignore Defensive Riding: Always be prepared for the unexpected actions of other drivers.

Don't Tailgate: Maintain a safe following distance to allow enough time to react to sudden stops or obstacles.

Don't Wear Jacket Backward: It can interfere with your movement and safety.

Wear Protective Gear: Always wear SIRIM-approved helmet, gloves, sturdy footwear, and protective clothing for safety.

Practice Safe Riding: Maintain distance, brake correctly, and corner smoothly.

Follow Traffic Rules: Obey all traffic laws & regulations.

Use Signals: Use turn signals, brake lights, and hand signals for communication.

Ride Sober: Never ride under the influence of alcohol and drugs.

Keep Up Maintenance: Regularly check motorcycle's tires, brakes, lights & other components.

Be Visible: Wear bright clothes and reflective gear especially during low-light conditions.

Stay Focused: Avoid distractions like using a cellphone or adjusting gadgets while riding.
