## **Speech and Communication Assessment Report**

Date: 16<sup>th</sup> March 2021

To

Ophelia Domingo

Audiologist

KPJ Hospital , kota Kinabalu , Sabah.

Dear Ophelia,

**RE: Caleb Tristan Harry Joinin , male D.O.B: 18/7/2016 C.A.: 4 y., 8 m.**

Thank you for seeing Caleb.

He was diagnosed with Autism Spectrum disorder ( moderate presentation) under the Clinical Psychologist, Dr Dhanya Pillai at Ara Damansara Medical Centre in September 2018.

He began speech therapy with me 4<sup>th</sup> March 2019 and hearing testing was recommended.

Given his difficulty with attention and more then, his parents concluded on providing him occupational therapy to help with behaviour and attention.

At his last appointment with me, he was beginning to speak however with poor clarity. He continues to have significant modulation issues. I have suggested that a complete hearing testing to ascertain his hearing as well as his middle ear integrity is important.

Kindly do the needful. He is now 4 years and 8 months.

Should you have further questions, kindly contact me at [pamela.tj8@gmail.com](mailto:pamela.tj8@gmail.com) or 012-315 2799.

Yours sincerely,

Pamela Thomas Joseph
