

PATHOLOGY REPORT

Courier Run: P09

Patient Details UR:
MUHAMMAD SYAFIE B OTHMAN
DR ZARUL AZHAM

DOB : 16/07/14 Sex: Male
IC No.: 140716101961 Age: 7 Years
Collected: 03/02/22 12:30 Ward:
Referred : 03/02/22 Yr Ref.:18753

Doctor Details
DATO DR ZARUL AZHAM M ZULKI
PUTRA MEDICAL CENTRE
47 JALAN BRP 1/3
BKT RAHMAN PUTRA
SG BULOH SEL 47000

Lab No.:22-1641930

SARS-CoV-2 PCR Assay (Novel CoronaVirus-2019/Covid-19)

Specimen type: Nasopharyngeal & Oropharyngeal Swab

Novel Coronavirus (2019-nCov) : Not detected

Method: Real time reverse transcription PCR.

Repeat testing may be required if clinically indicated as negative result does not exclude the infection with SARS-COV-2. SARS-CoV-2 may not have been detected for reasons including but not limited to the following:

1. A very low viral load of SARS-COV-2 below the limit of detection of this assay
2. Pre-analytical factors related to the collection, transport and storage of the specimen prior to testing

Note: If clinically indicated :

1. Retesting should be considered with a fresh sample collected immediately.
2. Suggest ruling out other non-SARS-CoV-2 respiratory infection with our Respiratory Pathogen Panel (RP26).

Validated by Pavatharany BSc.(Hons)in Microbiology,University TAR)

REPORT COMPLETED

PLEASE FILE

Tests Requested:
NOVEL CORONAVIRUS 2019
