Assalamualaikum Puan Zaty,

Please be informed that **9M-PMD** renewal C of A submission, tentatively shall be submitted within next month. Therefore we would like to request your assistant to make the aircraft available for the Airworthiness Review Physical Survey. The details are as follows:-

No	Reg. No	Ser. No	Type	Location	Aircraft Physical Survey
1	9M-PMD	31809	AW 139	PGU HANGAR SUBANG	01-09-2021, Wednesday, 1000HRS.

It is important for us to perform the survey as part of the Airworthiness Review Report required to be submitted to CAAM for recommendation to renew the C of A. It is recommended if the survey could be done the soonest to allow more time for corrective action during the survey.

Estimated 3 hours will be required to survey the said aircraft. Maintenance activity that is not obstructing the survey may be performed concurrently. Appreciate for Part-145 to make prepare the aircraft for the survey as follows:-

- Aircraft cleaned and parked in the hangar with a maintenance platform for access to MRH, engine, and tail rotor with the forward, engine cowling in the open position.
- At least one LAE to assist in the removal of the access panel (work order to be raised for removal and reinstallation of the panel).

I will update again if there are any changes to the survey date.

Your kind cooperation and attention are very much appreciated.

Best regards,
