## DAILY INSPECTION / PREFLIGHT INSPECTION

1. The Daily Inspection / Pre-Flight Inspection is a visual check to ensure the aircraft readiness for flight. On completion of the inspection, a signed entry must be made in the Journey Log.
2. The Daily Inspection / Pre-Flight Inspection are inspections that have to be performed by qualified maintenance personnel or by an authorized pilot as defined in para. 3 below when aircraft is out of base.
3. Authorized pilot is addressed to pilot which has been task trained and granted approval by Quality Assurance Department of the maintenance contractor.
4. The Daily Inspection / Pre-Flight checks in this AMP do not replace the Pre-Flight Checks in Rotor Flight Manual (RFM) requirements list, which must be performed by a pilot.
5. Basic inspection tasks required are:
  - a) Pre-flight inspection: Task to be carried out before each flight. Noted in remarks as PF.
  - b) Before first flight: Task to be carried out only before the first flight of the day. Noted in remarks as BFF.
  - c) Daily Inspection: Task to be carried out after the last flight of the day. Noted in remarks as DI.
6. Reference shall be made to:
  - a) A109E MPM 05-21-00 Airframe – Schedule Maintenance
  - b) PW206C EMM 72-00-00 Engine Maintenance Manual
