Good day, Ms. Qistina.

The workshop would like to request maintenance with our equipment "Ventilation Fan" due to poor operation and poor ventilation that can cause an unpleasant smell inside the working area. Hopefully, you can provide someone or a vendor to provide the service. And for your info, the safer card was raised last week regarding this matter. Attached are the documents for your reference.

Thanks and Regards,

Hamidah Hama

Dear Qistina.

cc Admin.

As per observation on the Safer Card received, these ventilation fan is needed to eliminate hazardous vapours from the room and prevent them from affecting the health of our staff operating the components.

We would like to ask for your assistance in having this ventilation fan repaired or replaced as soon as possible.

Attached with the Safer Card report for your kind reference.

Thank you

Kind Regards,

Syed Mohd Rastam Jamalolail Syed Ikmal Hashim

Salam Rastam

Thanks for the info, while waiting for replacement please use other suitable alternative to minimise the risks.

Kindest Regards,

Joe

Dear En. Azizol.

Thank you for your kind attention to this matter.

The workshop has taken immediate mitigation to reduce the risk.

But it can't last long due to breaching security and contamination in the room.

Two units of respirator masks are available but it is insufficient because there are more than five personnel carrying out their task at one time.

Letting the door open might solve the problem but it becomes a security issue.

It is unsuitable to open the windows at the battery servicing area because of the contamination issue.

In conclusion, workshop personnel manage to reduce the risks temporarily, but a permanent solution is needed nevertheless.

Hopefully, you would assist us on this matter.

Thank you.

Kind Regards,

Syed Mohd Rastam Jamalolail Syed Ikmal Hashim

Dear Mr Rastam

Ventilation fan have been replaced. Please check the condition before closing the issues.

Please advise.

Thank you
