EDUCATIONAL BACKGROUND

YBR TalentRakyat Creative Accelerator (Nov 2018-Dec 2018) @Universiti P. Ramlee (ASWARA), KL, Malaysia

Exposed to the inner workings of the creative industry and given training on some of the tools of the trade. Also introduced to and mentored on digital marketing skills by rising Malaysian entrepreneurs

Bachelor of Technology (Hons.) Petroleum Geosciences (Jan 2012-Dec 2016) @Universiti Teknologi PETRONAS, Perak, Malaysia

Developed understanding on the oil and gas sector starting from exploration, development until production phase. This course emphasised on the geology and geophysics part of resources acquisition as well as in project development management

High School (Jan 2007-Dec 2011)

@SBPI Tun Abdul Razak, Pekan, Pahang (SPM 9As)

@SMK(A) Pahang, Muadzam, Pahang (PMR 9As)

CAREER BACKGROUND

Property Manager (July 2018-Current) Self Employed, Kuala Lumpur

Manages multiple rented properties located in Klang Valley. Job entails addressing rental matters, tenant request/reports and communication between building management body and tenant

Customer Support Specialist (Jan 2018-July 2018) Agoda International, Kuala Lumpur

Attended & provides solution to clients (travel agencies, hotels, booking partners & customers) inquiries. Also responsible as a communication medium between all parties relating to accommodation reservations & requests

Restaurant Crew (Aug 2017-Dec 2017) Loft by Loteng, Kuantan, Pahang

Worked as a part of Front of House crew in a Thai-Western Fusion Cafe, Loft by Loteng, located in Kuantan, Pahang, Malaysia. During my time there, I was to wait tables, man the cash machine and handle drinks & desserts bar

Intern Geologist (Sept 2015-May 2016) PETRONAS Carigali Sdn Bhd, Kuala Lumpur

Underwent 9 months of industrial placement in oil and gas sector in Kuala Lumpur. Assisted fellow geologists on ongoing projects while being exposed to professional environment and industry standards

PROJECTS AND CONTRIBUTIONS

Loft by Loteng, Kuantan, Pahang

Came up with new shift rotation and offday schedule for staff as per managers specifications. New schedule was put in trial by management and reiterated to fit staff and managements preferences

Carbonate Characterisation Centre (C3) PETRONAS Carigali, Kuala Lumpur

Assisted fellow geologist to identify a prospective oil well in offshore Sarawak. This is done by interpreting the paleo-sedimentary environment of the well and discriminate it against obtained cores and reservoir data
Also, was responsible for catagorising and sorting knowledge database at the department level. This was done by labeling and tracking reference materials (reports, journals, books)

Final Year Project, Universiti Teknologi PETRONAS, Perak

Researched on Kirchhoff Post-Time Migration on a Synthetic Seismic Model as Final Year Project. Aimed to improve the resolution of the seismic data especially in deeper area and below subsurface structures. Hence, enabling more accurate seismic interpretation and lowering the risk in Prospect Assessment stage
