### WORK EXPERIENCE

---

**BHIC AeroServices Sdn. Bhd.**

**Subang, Selangor**

*Quality Assurance Officer (Protégé)*

*Sept 23 - current*

- Contributed to the revision of the Quality Assurance Department Manual (QADM) by assisting in making necessary amendments.
- Reviewed and gathered comprehensive data through the audit process
- Developed an efficient Safety Management System (SMS) dashboard by meticulously gathering data from comprehensive audits across all relevant areas.
- Participated in the thorough review and analysis of the Hazard Identification Risk Assessment (HIRA) within the context of the Safety Management System (SMS).
- Raised Quality Audit Report (QAR) and Non-Compliance Report (NCR) after the audit had been completed
- Collaborated in conducting a Surveillance Audit alongside the QA team within the Avionic Maintenance Department.
- Performed comprehensive due diligence to meticulously assess and evaluate the Battery Workshop Capabilities.
- Developed a comprehensive checklist for Special Tools and Equipment within the Battery Workshop Capabilities.
- Conducted data collection and computed the delays associated with Organization Approval renewal applications, analyzing timelines from the due date.
- Analyzed data and computed the duration between the audit date and the issuance of the audit report to determine and address any delays in the process.
- Compiled data and performed delay calculations in response to external audit findings, meeting the necessary requirements from the submission date.
- Contributed to the development of a new Supplier Evaluation Form aimed at assessing and enhancing supplier performance.
- To compile a Schedule of Experience, data from technical worksheets and work orders pertaining to tasks completed on the M55-05 must be gathered comprehensively.

**Airfoil Services Sdn. Bhd.***Quality Assurance Trainee***Petaling Jaya, Selangor***Feb 2023 - July 2023*

- Collaborated with the QA team to conduct internal audits for non-destructive tests at the production site.
- Collaborated with the QA team to conduct comprehensive company approval tests and inspections, ensuring technicians met stringent requirements.
- Actively participated in Internal Non-Compliance (INC) meetings, focusing on identifying and addressing issues related to product repairs.
- Conducted a comprehensive evaluation of the company's self-study training assessment, focusing on Human Factors and Company Procedures.
- Collaborated with QA teams to conduct First Article Inspection (FAI) for ARP machines and the shot peening process at the production site.
- Conducted Welding Qualification Tests (WQT) for the production staff at the welding site.
- Conducted a thorough review and verification of the On-Job Training (OJT) Master List.
- Participated in the HIRARC (Hazard Identification, Risk Assessment, Risk Control) meeting specifically focused on the manual grinding process.
