OBJECTIVE

I am a Financial Mathematics graduate from USIM looking to land a full-time position in Accounting / Banking / Finance / Customer Experience field. I am highly motivated and have built myself as a high self-esteem person who actively excels in academic and extra-curricular activities throughout my four university years. I am optimistic and looking forward to join the industry to develop my analytical, financial and organizational skills further. I am knowledgeable in Accounting, Microsoft Excel and updated with Malaysian Financial Reporting Standard (MFRS) and very passionate in research, analysis, economics forecasting, and financial trends.
