15 DECEMBER 2021

Dear Sir.

I'm a three-year experience safety executive interested in working in your company as one of your safety management system team. My experience is aligned with the SMS 4 pillars which include safety policies & objectives, risk management, safety assurance & safety promotions, and I know I would be a benefit to the team.

Even I'm still young in aviation safety and only involve in the safety of B737-800/900 & ATR72-600 aircraft type, I am interested to gain experience in handling safety for AW139 helicopters. In my current experience, I have assisted in conducting meetings, training, conducting safety surveillance, assisting in investigations, safety reports coordination and safety performance analysing. Moreover, I also assist in developing the SPI database, developing the safety reports database, coordinating ERT and planning for emergency mock drill. This is inclusive of assisting in promoting safety through conducting training and briefing is one of the tasks performed.

In addition to that, my current knowledge gave me a good understanding of facing the challenges to meet the company safety goals, hence, benefiting the company reputation.

Please review my attached application for additional details regarding my experience. Do not hesitate to reach me if you have any questions or need further clarification. It is my gratitude to meet and discuss the position in detail.

BEST REGARDS,

SYED MOHD RASTAM
