

CESSNA®
MODEL 208
ILLUSTRATED PARTS CATALOG
LIST OF REVISIONS

1. Effectivity

- A. The configuration of each airplane is tailored to the request of the customer. This Illustrated Parts Catalog covers airplanes (208) 0001 & ON AND airplanes (208B) 0001 & ON.

NOTE: Information in this Illustrated Parts Catalog is applicable to U.S. and foreign certified MODEL 208 airplanes. Information unique to a particular country is identified in the chapter(s) affected.

2. Revisions

- A. This Illustrated Parts Catalog includes the original issue and the following listed revisions. To ensure that information in this manual is current, the revisions must be incorporated in the manual as they are issued.

Revision Number	Date	Revision Number	Date
Original Issue	Aug 1, 1995	A0	Nov 4, 2021
A1	Feb 21, 2022	A2	Nov 29, 2022
A3	Apr 30, 2024	A4	May 31, 2024

NOTE: Basic publications are assigned a part number which appears on the title page with the date of the issue. Subsequent revisions are identified by the addition of a revision code after the part number. 1 after a part number denotes the first revision to the basic publication, 2 the second, etc. Occasionally, it is necessary to completely reissue and reprint a publication for the purpose of obsoleting a previous issue and outstanding revisions thereto. As these replacement reissues are made, the code will also change to the next successive letter of the alphabet at each reissue. For example, A for the first reissue, B for the second, etc. Revisions listed above include only the original issue, reissues, and the revisions issued subsequent to the last reissue of the manual.

3. Export Compliance

- A. This publication contains technical data and is subject to U.S. export regulations. This information has been exported from the United States in accordance with export administration regulations. Diversion contrary to U.S. law is prohibited.

ECCN: 9E991

4. Proprietary Rights Notice

- A. These data are proprietary to Textron Aviation Inc. Use of this publication or any of the data contained herein for any purpose other than direct aircraft operation or maintenance is prohibited without prior written authorization from Textron Aviation Inc. Reproduction or redistribution of this publication in whole or in part is prohibited.
