This Information Notice gives some clarifications about "PREPRINT" documents.

A "PREPRINT" is a preliminary edition, which is used to transmit an update of the technical publications in advance of the normal process of management and publication.

Currently, when largely dispatched, "PREPRINT" documents are attached in O.R.I.O.N. Online through O.R.I.O.N. updates that can be downloaded or used online.

### No. 3673-I-00

To grant access to customers who do not use O.R.I.O.N., the "PREPRINT" documents will be provided:

- In paper format according to your paper subscription
- In PDF format through your subscription, consultable through the AirbusWorld Portal (formerly Keycopter).

For EVIDOC and server-based O.R.I.O.N. Full subscribers, we will add an access to PDF online to your online subscription. It will include the "PREPRINT" documentation that can be consulted through our AirbusWorld Portal.

If you do not have access to the AirbusWorld portal, please do not hesitate to get in touch with your usual contact.

Please note that there will be no retroactivity, only future "PREPRINT" documents will be available.

Moreover, we will soon get back to you to clarify the cases in which the PREPRINT is used and dispatched through the usual Tech Data channel.
