

Information Notice

SUBJECT: MAIN ROTOR DRIVE

New tool reference for Dauphin MGB oil filter cover

| AIRCRAFT CONCERNED | Version(s) | |
|--------------------|---------------|-------------------------|
| | Civil | Military |
| AS365 | N, N1, N2, N3 | F, Fs, Fi, K, K2 |
| AS565 | | MA, MB, SA, SB, UB, MBe |
| SA366 | | GA |
| EC155 | B, B1 | |

Airbus Helicopters has improved its tools for the opening/closing of the MGB oil filter cover. Feedback highlighted that the previous tool was not easy to use and could leave chips due to friction between metal parts.

The purpose of this Information Notice is to inform you that a new tool has been developed for customer order and use.

The new P/N X632P1000121 is available in the technical documentation: ICO 92-39-00-04 for AS365/AS366 and in IPC 13-63-20-09 for EC155.

For any additional information, comments on this subject, or for any question concerning this Information Notice, feel free to contact your usual Technical Support correspondent.
