1. SCOPE

1.1. APPLICABILITY

The contents of this document are meant to provide information on the P/N 8G2400G00431 B.O.B. DC CONVERTER.

1.2. OBJECT

The object of this document is to describe the AGE and its components, its main features and it will also provide all needed maintenance requirements to keep in service the P/N 8G2400G00431 B.O.B. DC CONVERTER.

1.3. WARNING AND SAFETY INSTRUCTIONS

A number of symbols are used throughout this document to indicate information to which the user should pay attention to. These are indicated below along with the specific meaning.

 Warning	...Indicates a danger that might arise from a product and might result in severe injuries or even death, if no precautions are taken.
 Caution	... Indicates a potentially dangerous situation, which might result injury or damage to the equipment.
 Notice	...Indicates a note providing information to help the reader during the procedure.

	GSE & TOOL USE AND MAINTENANCE MANUAL	Manual number: MAN- 8G2400G00431 REV. A
		Pag. 6 of 16

2. DOCUMENTS

2.1. APPLICABLE DOCUMENTS

The following table lists the applicable documents

REF	REFERENCE OF DOCUMENT	TITLE
N.A.	N.A.	N.A.

Table 2 – Applicable Documents

2.2. ACRONYMS USED

The main acronyms used in this document are listed below:

LHD	Leonardo Helicopter Division
P/N	Part Number
S/N	Serial Number
N.A.	Not Applicable
RADS	Rotor Analysis and Diagnostic System
AT	Advantage Technology
DC	Direct Current
B.O.B.	Break Out Box

3. DESCRIPTION

This tool is used in order to adjust the proper output voltage of the DC/DC Converter.

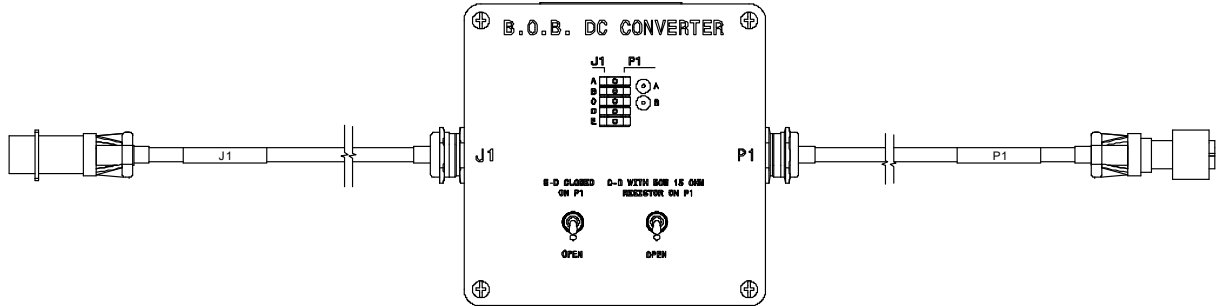

Figure 1 – B.O.B DC Converter

4. TOP ASSEMBLY DRAWINGS

Refer to P/N 8G2400G00431 B.O.B. DC CONVERTER.

5. IDENTIFICATION

The tool identification P/N is marked on the LHD identification tag.

 LEONARDO	
P/N <input style="width: 100%;" type="text" value="8G2400G00431"/>	
MFG. DATE <input style="width: 100%;" type="text"/>	ISS. <input style="width: 100%;" type="text"/>
C. I. <input style="width: 100%;" type="text"/>	GRWT kg <input style="width: 100%;" type="text"/>
<input style="width: 100%;" type="text"/>

6. OVERALL DIMENSIONS

- Length: 300 mm
- Width: 300 mm
- Height: 100 mm

7. WEIGHT

- Total Weight: 2,5 kg.

8. MAIN PARTS

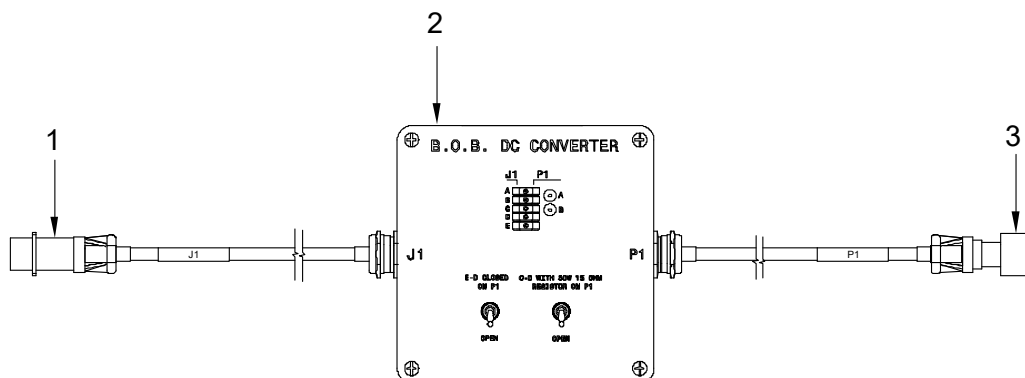

Figure 3 – Main Parts

The main parts of the 8G2400G00431 B.O.B. DC CONVERTER are:

1. Connection CONVERTER DC/DC 120W: J1 - MS3450W14P-5S Connector
2. Box
3. Connection CABLE ASSY: P1 - MS3456W14S-5S Connector

9. MAIN FEATURES DESCRIPTION

The tool is composed of one MS3450W14P-5S Connector (1), one Box (2) and one MS3456W14S-5S Connector (3).

10. WARNING AND SAFETY NOTES

10.1. WARNING NOTE

 Warning	<p>Use this equipment only for the purpose that it is designed for. Any other use can result in injury or serious material damage to the components.</p>
 Caution	
 Notice	<p>The Manual can never integrally replace the adequate competence of the user.</p>
 Warning	<p>Before and after each use of the equipment is necessary to perform the checks required. Do not operate with a tool damaged or partially completed, or partially assembled.</p>
 Caution	
 Notice	<p>This Manual provides guidelines and instructions of the equipment that are in addition to - but are not intended to replace or modify but only to integrate - any general or specific rule, regulation, decree or law that is in force in the place where the equipment is in use.</p>

Table 3 – Warning Note

10.2. SAFETY NOTES

Remember to wear protective overalls, safety shoes, protective gloves and glasses during all operational and maintenance phases.

Figure 4 – Safety Notes

11. STORAGE

The Tool shall be properly stored to provide protection from external weather conditions, damage and dirty particles.

Ensure that the tool parts are clean before storage.

11.1. LUBRICATION BEFORE STORAGE

Not Applicable.

11.2. STORAGE CONFIGURATION

The tool has no particular storage configuration.

Notice

To avoid permanent deformations, not overdo bending of the cable when performing the storage.

12. MAINTENANCE

Notice

Correct regular maintenance allows preventing most faults and safeguards of tool performance in time, thereby making it last longer.

Every year carry out regular maintenance on a regular basis as detailed in this manual.

Notice

The maintenance shall be performed with the cable disconnected.

Notice

Inspection intervals for tool parts placed inside in ready storage is 12 months.

12.1. CLEANING

Before inspection and after each use, carry out the cleaning of the tool components.

12.1.1. SPECIAL TOOLS, FIXTURE AND EQUIPMENT

No special tools, fixture and equipment are required for cleaning.

12.1.2. PART REQUIREMENTS

The parts to clean should be free from the moisture, emulsified water, soaps and metal shavings that can develop of corrosive acids.

They must also be free from wide grease and / or slush deposits.

12.1.3. MANUAL CLEANING

Clean thoroughly all metal surfaces with a clean lint-free cloth (Local supply).

12.2. CHECKS

Before and after each use or at least every year, carry out the check of kit component.

Before each use ensure that the manual is available to the operator, in the event of loss, request a copy to Leonardo Helicopters Division.

The Tool kit shall be submitted to following checks to guarantee the functionality.

All required checks shall be registered on CHECK RECORDS Table. Ref. *TLC_Table 1*

After each use of tool ensure to have registered the number of uses on HISTORICAL USES RECORD Table. Ref. *TLC_Table 2*

The Tool Log Card template contained in the Annex A of this manual can be replaced with any other log card template in use in the plant where the equipment is in use.

12.2.1. SPECIAL TOOLS, FIXTURE AND EQUIPMENT

No special tools, fixture and equipment are required for the checks.

12.2.2. VISUAL EXAMINATION

 Notice	<p>Replace the parts that do not obey the inspection requirements.</p> <p>Restore the marking of the parts that results damaged or not readable.</p>
--	--

All required visual checks are listed on Table 4

PERIODICITY	CHECK TYPE	COMPONENTS	
BEFORE AND AFTER EVERY USE	VISUAL EXAMINATION	Evidence of impact;	All
		Crushing or stripping	All
		Cracks	All
		Dents	All
		Wear	All
		Distortions	All
		Corrosion	All
		Loose or defective attaching parts (warning flag)	All
		Unsticking of parts	All
		Damage to the threads	N.A.
		Marking	All
		Damage to the pins and to the shell	All connectors
Damage to the insulation sleeves and wires	All cables		

Table 4 – Visual Check

12.2.3. PERIODICAL CHECKS

Not Applicable.

12.2.4. DIMENSIONAL CHECKS

Not Applicable.

12.2.5. SPECIAL CHECKS SUMMARY

Not Applicable.

	GSE & TOOL USE AND MAINTENANCE MANUAL	Manual number: MAN- 8G2400G00431 REV. A <hr/> Pag. 15 of 16
---	--	--

12.3. REPLACEMENT

All the parts for which it is allowed the components replacement are listed in Paragraph 15.

12.3.1. REPLACEMENT PROCEDURES

The replacement of parts of the kit does not require specific procedures.

13. CALIBRATION

No Calibration is required.

14. SHELF LIFE

Not Applicable.

15. SPARE PARTS

The components replacement is not applicable.

In case of several damage of the components shall request a new P/N 8G2400G00431 B.O.B. DC CONVERTER.

16. CE MARKING

No CE marking is required for the P/N 8G2400G00431 B.O.B. DC CONVERTER.
