Pratt & Whitney Canada Corp. (P&WC) issues this Service Information Letter (SIL) to advise operators of revising HW FCU maintenance inspection recommendation in Engine Maintenance Manual (EMM) for PT6A engines equipped with HW FCU. The intent of this new recommendation is to improve FCU and engine reliability, specifically addressing the low utilisation operator and operators operating in harsh environment.

The interval for this periodic inspection is based on the type and frequency of operation and operational environment. The details of the recommendation are available in the current revision of PT6A EMM in section 72-00-00- Engine Periodic Inspection table.

Should you require further clarification to the above, do not hesitate to contact your P&WC Field Service Manager.

Respectfully,
