Information about Spare Parts 2022 Price List

Dear Customer,

Leonardo Helicopters (LH) Customer Support & Services is pleased to submit to your attention the present Service Information Letter which provides detailed information concerning the 2022 Price List. LH provides this 2022 Price List to assist Customers / Operators in ordering Spare Parts for all the Commercial - Civil and Dual Use registered AgustaWestland helicopter models in subject.

The 2022 Price List is effective from 11th April 2022 and will remain applicable until 31st March 2023, replacing the previous Price List. As anticipated in the Service Information Letter in reference, the 2022 Commercial/Civil and Dual Use Products Price List has been conditioned by the magnitude of the current global situation, with a particular focus on its consequences on the rotorcraft industry, including our supply chain.

Spare Parts 2022 Price List

LH was able to maintain the prices fixed for more than 2,5 years to date, sustaining Customers and Operators all over the hardest pandemic time and introducing changes only after Customers gradual return to a more sustainable business and flight activity.

Today, LH hereby strongly confirms to have put in place all reasonable efforts to make a sustainable revision of 2022 Price List and average increase is between 4.75% and 6%, depending on the product lines, with spikes and vales for some specific components. Since every component is differently exposed to the floatability of the energy and raw materials market, different price increases have been applied on each item in order to preserve not impacted items from a generalized inflationary factor.

The 2022 Price List refer to brand new spare parts, repaired/overhauled and exchanged component. Price List, and associated T&Cs, are in principle applicable to Purchase Orders addressed to any of the LH's Supply Centres listed below, apart for specificities linked to local requirements.

All Purchase Orders placed through the e-Commerce Store and standard channels will be subject to the Terms and Conditions reported in the attachments to this Information Letter. In order to receive the 2022 Price List, please address your request to the following point of contacts related to the geographic network, specifying the helicopter model and the applicable currency. Along with your request, kindly also provide us with a copy of the attachments duly countersigned by your organization as a formal acceptance of the terms and conditions reported. As already said specific conditions linked to Purchase Orders addressed to any of the LH's Supply Centres will be separately communicated by the involved LH's Supply Centres.
