To: Leonardo Helicopters products
Owners / Operators / Service Centres

SUBJECT: **Information about Spare Parts 2022 Price List**

Helicopters Affected: All AW109 / AW119 / AW139 / AW169 / AW189

Dear Customer,

I hope that this letter finds you, your families and your organization safe and healthy.

With the present letter, I wish to provide details on the forthcoming revision of the Commercial/Civil and Dual Use Products Price List, which is one of the key tools we are leveraging to further collaborate and support.

Leonardo Helicopters (LH) has continued to consider the magnitude of the current global situation with a particular focus on its consequences on the rotorcraft industry and we are pleased to inform you that the current applicable terms and prices for the Commercial/Civil and Dual Use Products Price List, originally expiring 11th January 2022, are further extended.

As a result, I have the pleasure to confirm that LH has not raised its spare parts pricing for more than two years now, confirming our utmost attention to your needs and ensuring the best support to the entire Customer community with AgustaWestland Products, independently from the trends we see across the market, including our supply chain.

We confirm again our focus to remain with a close proximity to our Customer base, listening to your needs. Your feedback and contribution is crucial to us in driving enhancements in our provision of Customer Support, Services and Training to your fleet.

Information about Spare Parts 2022 Price List

LH foresees a revision of the terms and prices within 31st March 2022 and all Customers will be duly informed in due time in order to plan the logistic support.

In anticipating you that LH will continue to do all possible efforts in limiting as much as sustainable prices increase, we invite Customers to maximum benefit from this extension of conditions by placing orders within the extended validity of current Price List.

Should you need any additional information, please do not hesitate to refer to your point of contacts provided within the Customer Support & Training Worldwide Directory, available on Leonardo Customer Portal.
